PROFESSIONAL SUMMARY

Frontend Engineer with around 5 years of experience building scalable ecommerce applications using React.js, TypeScript, Next.js, and Sanity CMS. Experienced in delivering production-ready features, reusable component architectures, performance optimization, accessibility, and REST API integration across high-traffic consumer platforms including Tata Neu and Croma.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frameworks/Libraries: React.js, Next.js, Redux, React Router v7, Storybook

UI/Styling: HTML5, CSS3, SCSS, Bootstrap, Material UI, Tailwind CSS

CMS & Testing: Sanity.io, Jest, React Testing Library

Tools & DevOps: Git, Docker, Vercel, Jira, Figma, Azure

PROFESSIONAL EXPERIENCE

Software Developer | Techouts, Bengaluru

July 2025 - June 2026

- Built reusable React and TypeScript components for the Tata Neu design system used across multiple ecommerce modules.
- Collaborated with backend, QA, and product teams to deliver production-ready features in Agile sprints.
- Improved component maintainability through configuration-driven architecture and code reviews.

Software Engineer | Estuate Software Pvt. Ltd., Bengaluru

September 2021 - April 2025

- Delivered scalable frontend solutions in agile environment, consistently meeting project deadlines
- Integrated RESTful APIs and implemented responsive, accessible user interfaces across devices
- Developed unit test cases and performed bug fixes to maintain code quality

PROJECTS

Croma – Ecommerce | Jan 2026 - June 2026

Tech Stack: React.js, Sanity.io, Redux, Docker, Azure, REST API

- Contributed to large-scale Hybris to Sanity.io CMS migration for Croma ecommerce platform enabling scalable and config-driven content management
- Integrated Sanity.io schemas and APIs for dynamic content rendering, landing pages, product highlights, and promotional widgets
- Developed the Price Catchment module supporting dynamic location-based pricing, production deployments, and issue resolution across ecommerce product pages.
- Implemented the Bundled Offers (Freebie) feature with configurable business logic, React components, UAT support, and production rollout.

Tata Neu – Ecommerce | July 2025 - Dec 2025

Tech Stack: TypeScript, React.js, Tailwind CSS, Sanity.io, Storybook, React Router v7, Context API

- Enhanced config-driven React components using Tata Neu UI Kit for improved modularity across store pages
- Integrated Sanity.io headless CMS for dynamic content management and real-time updates

- Improved UI stability with fallback image logic, layout fixes, and cross-device optimizations
- Implemented ARIA labels, role-based navigation, and screen reader compatibility for accessibility
- Resolved critical bugs in function invocation, image rendering, event handling, and navigation flows

Zuora - Accounts Receivable | *August 2024 - April 2025*

Tech Stack: JavaScript, React.js, Redux, Jest, Storybook

- Engineered ERP-compliant GL Ledger segmentation configuration eliminating performance bottlenecks
- Built UI components aligned with Zuora Design System ensuring consistency across platform
- Implemented internationalization supporting 4 languages using i18next React
- Created reusable components in Storybook and conducted comprehensive unit testing

Callaway - Order Management Tool | *December 2023 - July 2024*

Tech Stack: JavaScript, React.js, Redux, Jest, Okta

- Developed initial phase including Okta authentication and foundational pages for Callaway Golf
- Identified and resolved security vulnerabilities through SAST and DAST scanning
- Optimized performance through debugging and testing for smooth user experience

EMS Portal - Employee Management System | *April 2022 - September 2023*

Tech Stack: JavaScript, React.js, Redux, TypeScript

- Built internal system for leave tracking, salary management, and project assignments
- Developed reusable components following DRY, KISS, and SOLID principles
- Optimized application using lazy loading and code-splitting techniques
- Ensured cross-browser compatibility and mobile responsiveness

EDUCATION

Bachelor of Engineering (B.E.) Visvesvaraya Technological University	2016 - 2021
Ballari Institute of Technology and Management CGPA: 6.2/10	

PERSONAL PROJECTS

Portfolio Website — Next.js portfolio showcasing projects with modern UI and smooth navigation

Amma Agro Agencies — Responsive business website optimized for performance and SEO

Food Delivery App — Integrated Swiggy’s live API for real-time data and seamless experience

YouTube Clone — Video platform with infinite scroll, lazy loading, and responsive design
